Varn® Ink-Readi

Prevents skinning in cans and on ink rollers

Specialist anti-oxidant for all printing applications and press types

Product Features

- Varn® Ink-Readi is a formulation of anti-oxidants which apply a protective film to avoid ink skinning on rollers, in fountains and in ink cans.
- Varn® Ink-Readi will not change the colour, consistency or drying speed of any offset or letterpress ink.
- Varn® Ink-Readi can also be used as a blanket lubricant to reduce tack on start-up, thus minimising the risk of wraparound.

Advantages of Varn® Ink-Readi

- Prevents ink skinning.
- Economical.
- No fluorocarbons.
- Compatible with all inks.

The aim of our technical documents is to inform our customers about general values. However, the transferability of general values known from experience and laboratory results to concrete practical applications depends on a number of factors which are beyond our control. We therefore ask for your understanding that this advice document cannot be used as the basis for claims in law. Furthermore, the correct application for each product has to be checked carefully for suitability.
