

**1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING**

**Product code** : KP2002RGFF  
**Product name** : S88-20R SPRAY POWDER ;2.5KG(4X2.5)  
**Manufacturer / Distributor** : Flint Group,  
Print Media Europe,  
Varn House,  
Northbank Industrial Park,  
Irlam,  
Greater Manchester,  
M44 5BL  
England.  
**e-mail address of person responsible for this SDS** : compliance.centre@flintgrp.com  
**Telephone no.** : +44 (0) 161 775 5412

**History**

**Date of printing** : 22.06.2011.  
**Date of issue/ Date of revision** : 29.09.2010.  
**Date of previous issue** : No previous validation.  
**Version** : 2

**2. HAZARDS IDENTIFICATION****Classification and labeling according to Regulation (EC) 1907/2006 (REACH)**

Classification and labeling have been determined according to EU Directives 67/548/EEC and 1999/45/EC (including amendments) and take into account the intended product use.

The product is not classified as dangerous according to Directive 1999/45/EC and its amendments.

**Classification** : Not classified.  
**Risk phrases** : This product is not classified according to EU legislation.  
**Safety phrases** : Not applicable.  
**Contains** :

**3. COMPOSITION/INFORMATION ON INGREDIENTS**

This preparation does not contain any substances presenting a health hazard within the meaning of the Dangerous Substances Directive 67/548/EEC or assigned an occupational exposure limit.

Occupational exposure limits, if available, are listed in section 8.

**4. FIRST AID MEASURES****First aid measures**

**General** : In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and seek medical advice.  
**Inhalation** : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.  
**Skin contact** : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.

**Date of issue/Date of revision** : 29.09.2010.

#### 4. FIRST AID MEASURES

- Eye contact** : Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Seek immediate medical attention/advice.
- Ingestion** : If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Give nothing by mouth. Do NOT induce vomiting.

#### 5. FIRE-FIGHTING MEASURES

- Extinguishing media** : Recommended:, alcohol-resistant foam, water spray or mist, Avoid creating dusty conditions and prevent wind dispersal.
- Extinguishing media not to be used** : Do not use water jet.
- Recommendations** : Fire will produce dense black smoke., Exposure to decomposition products may cause a health hazard., Appropriate breathing apparatus may be required., Cool closed containers exposed to fire with water., Do not release runoff from fire to drains or watercourses.

#### 6. ACCIDENTAL RELEASE MEASURES

- Personal precautions** : Exclude sources of ignition and ventilate the area. Avoid breathing vapor or spray. Refer to protective measures listed in sections 7 and 8.
- Environmental precautions** : Do not allow to enter drains or watercourses. If the product contaminates lakes, rivers, or sewers, inform the appropriate authorities in accordance with local regulations.
- Methods for cleaning up** : Contain and collect spillage with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations (see section 13). Do not use a dry brush as dust clouds or static can be created.

**Note: see section 8 for personal protective equipment and section 13 for waste disposal.**

#### 7. HANDLING AND STORAGE

Persons with a history of asthma, allergies, chronic or recurrent respiratory disease should not be exposed to any process in which this product is used.

- Handling** : Precautions should be taken to prevent the formation of dusts in concentrations above flammable, explosive or occupational exposure limits. Electrical equipment and lighting should be protected to appropriate standards to prevent dust coming into contact with hot surfaces, sparks or other ignition sources. To dissipate static electricity during transfer, ground drum and connect to receiving container with bonding strap. Operators should wear antistatic footwear and clothing and floors should be of the conducting type. Keep container tightly closed. Keep away from heat, sparks and flame. Avoid contact with skin and eyes. Avoid the inhalation of dust, particulates, spray or mist arising from the application of this preparation. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Put on appropriate personal protective equipment (see section 8). Always keep in containers made from the same material as the original one. Comply with the health and safety at work laws.
- Storage** : Store in accordance with local regulations. Observe label precautions. Store in a dry, cool and well-ventilated area. Keep away from heat and direct sunlight. No smoking. Prevent unauthorized access. Containers that have been opened must be carefully resealed and kept upright to prevent leakage.

Date of issue/Date of revision : 29.09.2010.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

- Occupational exposure limits** : Not applicable.
- Exposure controls** : Avoid breathing dust. Where reasonably practicable, this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain exposure to dusts below the OEL, suitable respiratory protection must be worn.

### Occupational exposure controls

- Respiratory system** : If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators.
- Skin and body** : Personnel should wear protective clothing. Care should be taken in the selection of protective clothing to ensure that inflammation and irritation of the skin at the neck and wrists through contact with the powder are avoided.
- Hands** : The user must check that the final choice of type of glove selected for handling this product is the most appropriate and takes into account the particular conditions of use, as included in the user's risk assessment.
- Gloves** : None available.
- Eyes** : Safety eyewear should be used when there is a likelihood of exposure.
- Environmental exposure controls** : Do not allow to enter drains or watercourses.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### General information

#### Appearance

- Physical state** : Solid.
- Color** : Not available.
- Odor** : Characteristic.
- Odor threshold** : Not available.

### Important health, safety and environmental information

- pH** : Not available.
- Boiling point** : Not available.
- Melting point** : Not available.
- Flash point** : Closed cup: Not applicable.
- Explosive properties** : Non-explosive in the presence of the following materials or conditions: shocks and mechanical impacts.
- Lower explosion limit** : Not available.
- Oxidizing properties** : Not available.
- Vapor pressure** : < 0.1 hPa
- Density** : Not available.
- Solubility** : insoluble in water.
- Octanol/water partition coefficient** : Not available.
- Viscosity** : Kinematic (20°C (68°F)): Not applicable.  
Kinematic (40°C (104°F)): Not applicable.
- Vapor density** : Not available.
- Evaporation rate** : Not available.
- Decomposition temperature** : Not available.
- Auto-ignition temperature** : Not available.

Date of issue/Date of revision : 29.09.2010.

**10. STABILITY AND REACTIVITY**

- Conditions to avoid** : Stable under recommended storage and handling conditions (see section 7). When exposed to high temperatures may produce hazardous decomposition products.
- Materials to avoid** : Not applicable.
- Hazardous decomposition products** : Decomposition products may include the following materials: carbon monoxide, carbon dioxide, smoke, oxides of nitrogen.

**11. TOXICOLOGICAL INFORMATION**

There is no data available on the preparation itself. The preparation is not classified as dangerous according to Directive 1999/45/EC and its amendments. See sections 3 and 15 for details.

**Toxicokinetics**

- Absorption** : Not available.
- Distribution** : Not available.
- Metabolism** : Not available.
- Elimination** : Not available.
- Acute toxicity** : Not available.
- Chronic toxicity** : Not available.
- Carcinogenicity** : Not available.
- Mutagenicity** : Not available.
- Teratogenicity** : Not available.
- Reproductive toxicity** : Not available.

**12. ECOLOGICAL INFORMATION**

There is no data available on the preparation itself.

Coating powder residues should not be allowed to enter drains or watercourses or be deposited where they could affect ground or surface waters.

The preparation has been assessed following the conventional method of the Dangerous Preparations Directive 1999/45/EC and is not classified as dangerous for the environment.

**Aquatic ecotoxicity**

Product/ingredient name	Result	Species	Exposure
Not available.			

**Ecological information****Persistence/degradability**

Product/ingredient name	Test	Result	Dose	Inoculum
Not available.				

Product/ingredient name	Aquatic half-life	Photolysis	Biodegradability
Not available.			

**Bioaccumulative potential**

Product/ingredient name	LogP <sub>ow</sub>	BCF	Potential
Not available.			

- PBT** : Not applicable.
- vPvB** : Not applicable.

Date of issue/Date of revision : 29.09.2010.

## 13. DISPOSAL CONSIDERATIONS

Do not allow to enter drains or watercourses.

Dispose of according to all federal, state and local applicable regulations.

**Methods of disposal** : The generation of waste should be avoided or minimized wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

**European waste catalogue (EWC)** : Not available.

**Hazardous waste** : Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 91/689/EEC.

## 14. TRANSPORT INFORMATION

### International transport regulations

**Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**This product is not regulated for carriage according to ADR/RID, IMDG, ICAO/IATA.**

## 15. REGULATORY INFORMATION

**Chemical Safety Assessment** : This product contains substances for which Chemical Safety Assessments are still required.

**EU regulations** : The product is not classified as dangerous according to Directive 1999/45/EC and its amendments.

See sections 2 and 3 for details.

**Europe inventory** : All components are listed or exempted.

**Industrial use** : The information contained in this safety data sheet does not constitute the user's own assessment of workplace risks, as required by other health and safety legislation. The provisions of the national health and safety at work regulations apply to the use of this product at work.

## 16. OTHER INFORMATION

**CEPE MSDS Code** : 3

The information in this Safety Data Sheet is required pursuant to EU Directive 91/155/EEC and its amendments.

**Date of issue/Date of revision** : 29.09.2010.

**Version** : 2

Indicates information that has changed from previously issued version.

### Notice to reader

The information in this SDS is based on the present state of our knowledge and on current laws. The product is not to be used for purposes other than those specified under section 1 without first obtaining written handling instructions. It is always the responsibility of the user to take all necessary steps to fulfill the demands set out in the local rules and legislation. The information in this SDS is meant to be a description of the safety requirements for our product. It is not to be considered a guarantee of the product's properties.

**Date of issue/Date of revision** : 29.09.2010.
