HEALTH & SAFETY

ROLLER LUBE

KU401RLG01AF

GB Roller lubricator suitable for all types of printing rollers to run dry/for use with EPDM rollers

Varn® Roller Lube

Lubricant for rollers and blankets

Speciality product for all printing applications and press types

Product Features

- Varn® Roller Lube lubricates rollers when printing half web or on printing units that require lubrication when running without ink.
- Varn® Roller Lube is safe for use on most types of rubber compound (except EPDM).
- Varn® Roller Lube can be sprayed on blankets at start-up to reduce tack.
- Varn® Roller Lube has a high flashpoint (>100°C) and so is not classified as flammable or hazardous.
- Varn® Roller Lube allows ink to be applied without washing up roller train.

Advantages of Varn® Roller Lube

- Lubricates rollers when printing half web.
- Lubricates units without running ink.
- Can be sprayed or applied from wash up bottle.
- High flashpoint (>100°C) AIII.

The aim of our technical documents is to inform our customers about general values. However, the transferability of general values known from experience and laboratory results to concrete practical applications depends on a number of factors which are beyond our control. We therefore ask for your understanding that this advice document cannot be used as the basis for claims in law. Furthermore, the correct application for each product has to be checked carefully for suitability.
